

Step by Step configuring Exchange email account on Iphone.

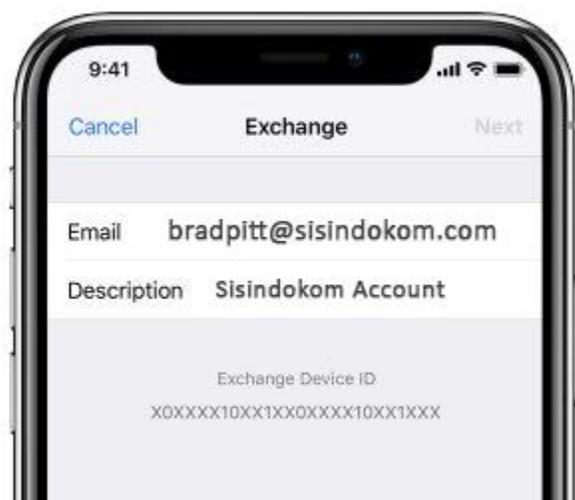

1. Add your Exchange account

Tap Settings > Passwords & Accounts > Add Account > Exchange.

2. Enter your Email address

Enter your email address, then tap Next. You can also enter an account description.

Ex: Sisindokom Account, Unias Account, etc

3. Connect Exchange Server

After you enter your email address, choose **Sign In**

OR

Configure Manually.

Tap Configure Manually to set up your account with Basic authentication. Enter your email password, then tap Next. You might also be prompted to enter additional server information.

Note:

*we recommend you to choose **sign in**, if the configuration not successfull then you can configure manually.

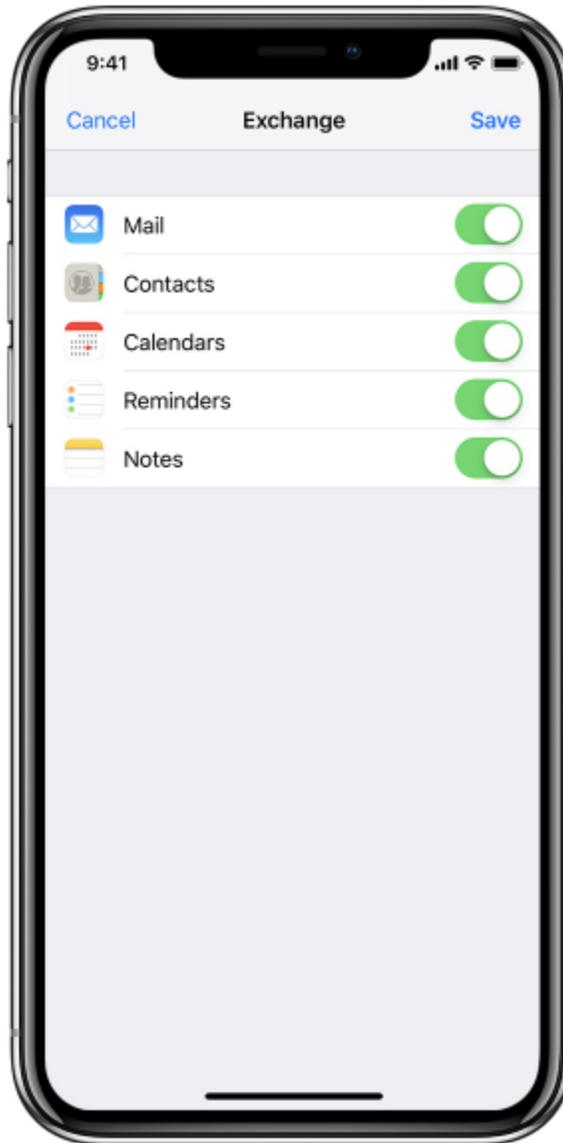

Here are details for configure manually :

Emails : [Your email address] ex: bradpitt@sisindokom.com
Server : **astelmail.unias.com**
Domain : **unias** OR you can use **unias.com**
Username : [Your Email Username] ex: bradpitt
Password : [Your Email Password] ex: Succ3ssFull*168

4. Sync your content

You can sync Mail, Contacts, Calendars, Reminders, and Notes. When you're finished, tap Save.

5. Finish! Now you can read and reply you office email anywhere.

Note :

****If you need to Edit your Exchange settings :**

Tap Settings > Passwords & Accounts, then select your Exchange account.

You can also set up automatic out-of-office replies, and change how often you want Mail to sync.
